DEDICATION

We dedicate this project to our beloved parents, brothers, sisters, and our entire families for their endless love, prayers, and encouragement throughout our academic journey.

We also dedicate this work to all our friends and colleagues who have supported us in one way or another.

Finally, we sincerely dedicate this research to our supervisor, **Eng. Abdirizak Mohamed Ahmed**, for his continuous guidance, patience, and valuable advice that made this project possible.

ACKNOWLEDGEMENTS

First and foremost, all praise is due to Almighty Allah, who granted us the strength, wisdom, and opportunity to accomplish this work successfully.

Secondly, we would like to express our heartfelt gratitude to our supervisor, **Eng. Abdirizak Mohamed Ahmed**, for his valuable guidance, continuous support, and constructive corrections from the proposal stage to the completion of this project.

We also extend our appreciation to our parents and families for their endless love, encouragement, and prayers that kept us motivated throughout our four-year academic journey. Special thanks go to our lecturers and the entire Jazeera University community for sharing their expertise and providing us with the knowledge and support needed to complete our studies.

Finally, we would like to sincerely thank our classmates, colleagues, and graduate students for their cooperation and encouragement. We also wish to express our gratitude to ourselves as a team, for supporting one another and working together to successfully complete this thesis.

APPROVAL SHEET

This is to confirm that the project entitled “**JU Hall Event System**” submitted by the under-mentioned candidates for partial fulfillment of the requirements of the **Bachelor Degree in Computer Science and IT**, under the Faculty of Computer Science and IT, Jazeera University, is an original research project. The results embodied in this project have not been submitted elsewhere for the award of any degree in this University or any other institution.
